

Kim Kardashian dating again?

London, February 04: Reality TV star Kim Kardashian has reportedly been "hanging out" with American football quarterback Mark Sanchez.

The 31-year-old, who was last year married to basketball star Kris Humphries for just 72 days, has been hooking up with Sanchez but has been careful to avoid being seen with him in public.

"Kim and Mark like to meet in hotels for dinner dates and flings," contactmusic.com quoted a source as saying.

"Whenever Kim is in New York, they hang out. They are very careful with not being seen together, Mark is seeing someone! She has her hopes set on a bigger star than Sanchez. But for now, he will do," the source added.
